Chippenham Neighbourhood Plan Community Survey

Survey Key

- Radio button
- Tick box (multiple choice)
- 1. Ranking item

Welcome to our survey

Thank you for participating in our survey. Your feedback is important!

Neighbourhood Plans must reflect the needs and views of the community. This survey is an important way for us to understand what you want the plan to contain.

When you answer the questions in this survey, please respond for yourself and not others (unless specified). It should take you around 20 minutes to complete the survey.

Find out more about Chippenham Neighbourhood Plan on our website:
www.chippenhamneighbourhoodplan.org.uk

Community Infrastructure

The term “Community Infrastructure” means all the buildings, public spaces and locations where we, as a community, meet to come together. It is a broad term that covers parks and gardens, museums, public meeting rooms, Scout huts and village halls, and places of worship. These questions are seeking to evaluate what Chippenham already has and what we might need in the future.

How many times a month would you estimate that you participated in one of the following types of activities in Chippenham?

	Never/once a month	2-4 times a month	More than 4 times a month
Entertainment, arts and culture (theatre, cinema, museums, live music, etc)	•	•	•
Children’s activities (play groups, art clubs, play, etc.)	•	•	•
Climate change prevention and environmental improvement (meetings, rallies, volunteer working)	•	•	•
Healthy lifestyles such as healthy eating or exercise (dieting clubs, gym, organised sporting events)	•	•	•

Visited a park, playground or garden	•	•	•
Religious or secular celebration	•	•	•
After school clubs and school-based activities	•	•	•
Youth Club	•	•	•
Individual sporting activity (tennis, running, walking, cycling)	•	•	•
Organised group sporting activity Community run café	•	•	•
Community or Civic Group meeting (Civic Society, Scouts, Rotary Club, etc)	•	•	•

Please name your favourite venues or locations for the following activities:

What is your favourite entertainment, arts and culture venue or location in Chippenham?

What is your favourite children's activity venue or location in Chippenham?

What is your favourite climate change prevention/environmental venue or location in Chippenham?

What is your favourite healthy lifestyles venue or location in Chippenham?

What is your favourite park, playground or garden in Chippenham?

What is your favourite venue or location for religious or secular celebration?

What is your favourite after school club or school-based activity in Chippenham?

What is your favourite youth club in Chippenham?

What is your favourite individual sporting activity venue or location in Chippenham?

What is your favourite organised group sporting activity in Chippenham?

What is your favourite community run cafe in Chippenham?

What is your favourite community or civic group meeting venue or location in Chippenham?

Do you have any other favourite venues or locations in Chippenham that you have not mentioned above?

Overall, what is your favourite venue or location in Chippenham?

Why do you like this venue or location?

What improvements would you like to see to this venue or location?

If you were in charge of community infrastructure in Chippenham and you had £1,000,000 to invest, what would you put the money towards? Pick your favourite from this list:

- Entertainment, arts and culture
- Children's activities
- Climate change prevention and environmental improvement
- Healthy lifestyles
- A park, playground or garden
- Religious or secular building or space
- After school club or school-based activity
- Community run café
- Community or civic group meeting space
- Other (Please specify)

Is there any community infrastructure that you think is missing in Chippenham?

Green Infrastructure

The term 'Green Infrastructure' refers to our natural and open spaces, our parks and gardens, our rivers and streams and even our back gardens. Green infrastructure is used by people for recreation, contemplation and visual enjoyment, and by creatures who use it as their habitat. These questions seek to understand how you use our Green Infrastructure and what improvements might be beneficial.

Which of the following purposes for green space do you think are most important to you? Please rank them in order of importance, where '1' is most important and '7' is least important.

1. Recreation and Play
2. Wildlife and biodiversity
3. Combatting climate change/storing carbon
4. Preventing flooding
5. Mental health and wellbeing
6. Physical health and wellbeing
7. Active travel - cycling, walking etc

How do you rate the provision of green space in Chippenham for a range of uses including recreation, wildlife and biodiversity, flood prevention etc?

- Excellent
- Good
- Average
- Poor
- Very Poor

How do you rate your access to green space?

- Excellent
- Good
- Average
- Poor
- Very Poor

Name one improvement to Chippenham's 'Green Infrastructure' that you would like to see.

Transport

The Neighbourhood Plan can only have a limited impact on highways planning, but it can ensure that new development makes provision for sustainable modes of travel such as walking and cycling.

What form of transport do you use most frequently for access to the Town Centre?

- Car
- Bus
- Walk
- Cycle
- Taxi
- Motorbike
- Mobility vehicle
- Other (Please specify)

What would encourage you to cycle or walk more frequently into the Town Centre? Tick as many as apply to you.

- More cycle storage
- Better quality cycle storage
- Better cycle/pedestrian routes
- Safer cycle/pedestrian routes
- Segregated cycle paths
- Cleaner air
- Cycle to work scheme
- Education about health benefits of cycling/walking
- Other (Please specify)

What would encourage you to use buses (or use them more) to get to the Town Centre or to other local destinations? Tick as many as apply to you.

- Cheaper fares
- More frequent buses
- Earlier/later buses
- Better quality bus stops (e.g. with shelters)
- New routes that better meet your travel needs
- Other (Please specify)

Economy

Chippenham is a place where many people commute out during the day to go to work. We would like to help provide more jobs locally and understand how you get to work.

What forms of transport do you use most frequently to access your main place of work? Tick as many as apply.

- Car
- Train
- Bus
- Walk
- Cycle
- Taxi
- Motorbike
- Mobility Vehicle
- I mainly work from home
- I don't currently work
- Other (Please specify)

If you travel to work, where is your main place of work?

- Chippenham
- 5-9 miles from Chippenham
- 10-14 miles from Chippenham
- 15-19 miles from Chippenham
- 20-24 miles from Chippenham
- 25+ miles from Chippenham

Housing Need

Chippenham has had a lot of new housing recently and more will be built in the future. We want to ensure that those houses are what people want and need. When we speak of 'housing need' we are trying to identify which types of housing are needed for different sectors of our community such as:

- First-time buyers
- Older people thinking about downsizing
- People struggling to afford rent or mortgage costs
- People who cannot afford to buy a home at open-market prices
- People who need housing at an affordable rent
- People with social housing needs

Until now you have been asked to complete the survey for yourself. For this section only, please complete the survey for your household.

Who owns the home you live in now?

- Self (with or without mortgage)
- Shared ownership
- Parents or relatives
- Private rented
- Social rented
- Employer

- Other (Please specify)

Is anybody in your household looking for a new home in Chippenham?

- Yes (now or in the next 5 years)
- Maybe (now or in the next 5 years)
- No

If you answered 'yes' or 'maybe' to the previous questions, why does your household need a new home?

- Want to start first home
- Want to buy a new home but can't afford it
- Want to rent a new home but can't afford it
- Can't afford current rent
- Can't afford current mortgage
- Need a bigger home
- Need a smaller home
- Special needs
- Tenure insecure
- Job insecure
- To be near family
- To give or receive family support
- Retiring
- Want to build own home
- Other (Please specify)

What type of home would best suit your needs?

- Detached house
- Terraced house
- Bungalow
- Semi-detached house
- Flat

Does anyone in your household have a specialist housing need? If so, what type do they require?

- No
- Yes, ground floor accommodation
- Yes, sheltered housing
- Yes, extra-care housing
- Yes, residential care
- Yes, supported living for an adult with learning disabilities who wants to live independently in a home of their own
- Other (Please specify)

What tenure does your household need if you were to move?

- Owner
- Shared ownership (part owned by a Housing Association or charity)
- Private rent
- Social rented (Housing Association)
- Other (Please specify)

How many bedrooms would your new home need?

- One
- Two
- Three
- Four or more

If interested in renting or buying a property, can you give us an idea of how much you could afford to pay per month? Please do not include housing benefit contributions.

- Less than £600 per month
- £600 - £700 per month
- £800 - £900 per month
- £900 - £1,000 per month
- £1,000 - £1,500 per month
- Over £1,500

Are you seeking affordable housing through Homes4Wiltshire and are you registered with them?

- Yes
- No

Sustainability & Climate Change

We are seeking to do our part to manage climate change and create a zero carbon Chippenham. We would like to know how improvements in new buildings and types of renewable energy are perceived.

New buildings should have renewable energy built in, providing as much of the building's energy needs as possible from renewable energy on site.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New buildings should be designed to be highly energy efficient / carbon neutral, in order to minimise the need for heating and cooling e.g. thicker walls, south-facing glazing with integral shading, designed for natural ventilation and to be resilient to extreme weather.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New buildings should be designed to be highly sustainable in design and construction, using sustainable materials with low embodied energy.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

Through their design, layout and landscaping, new buildings should be designed to be resilient to overheating during heat waves.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New buildings should have facilities for drying laundry outside.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New buildings should have secure, weatherproof bike storage, useable by all.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New developments should have charging infrastructure for electric cars

- Strongly agree

- Agree
- Not sure
- Disagree
- Strongly Disagree

New buildings should incorporate green roofs and walls to help reduce flooding (by slowing down rainwater runoff), to reduce heat extremes and provide wildlife habitat.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

New developments should utilise natural drainage systems such as soakaways, ponds and ditches to help reduce flooding (by slowing down rainwater runoff) and provide wildlife habitat.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

Do you think the Neighbourhood Plan should require new development to be net carbon neutral i.e. be sufficiently energy efficient and generate sufficient renewable energy so as not to contribute to climate change?

- Yes definitely
- Yes probably
- No

Do you have any comments on the above question?

Chippenham should aim to become self-sufficient in energy generation, generating all of our electricity demand from renewable sources.

- Strongly agree
- Agree
- Not sure
- Disagree
- Strongly Disagree

What forms of renewable energy would you support in principle? Please indicate to what extent you support each of the renewable energy options below.

	Strongly in favour	In favour	Not sure	Against	Strongly Against
Roof based solar panels	<input type="radio"/>				
Commercial scale solar farms	<input type="radio"/>				
Micro-hydro projects	<input type="radio"/>				
Onshore wind	<input type="radio"/>				
Anaerobic digestion	<input type="radio"/>				
Energy from waste	<input type="radio"/>				
Geo-thermal energy generation	<input type="radio"/>				
District heating	<input type="radio"/>				
Ground source heat pumps	<input type="radio"/>				

Support should be given to:

	Strongly agree	Agree	Not sure	Disagree	Strongly Disagree
*Wholly community owned renewable energy schemes, returning all profits to the community	<input type="radio"/>				
*Partially community owned projects (jointly owned with commercial developers) returning a share of the benefits to the community.	<input type="radio"/>				

Commercial renewable energy developments, wholly privately owned, but returning some benefits to the community. All renewable energy schemes, regardless of ownership and benefit structures.

• • • • •

Renewable energy developments should not be encouraged at all, regardless of ownership and benefit structures

• • • • •

*Wholly community owned projects return all of the profits to the community, but the community carries all of the risk and cost of developing them. Jointly owned and private sector projects return progressively smaller returns to the community but require less of an investment (of time and money) from the community to develop.

If you are interested in answering some further questions relating to Climate Change and Sustainability to assist with our Neighbourhood Plan and Town Council Climate Emergency Advisory Group, please take our supplementary survey at the end of this survey.

About You

Now it would be really helpful to know a little bit more about you. We would like to collect personal data on your age, gender, postcode and household status.

Consent

Chippenham Town Council would like to collect your personal data to ensure that our survey has reached all sectors of the Chippenham community, for more meaningful results and to provide you with an opportunity to be involved in the Neighbourhood Plan and any associated consultations or surveys. We may share your data with Wiltshire Council Planning for the purposes of the Neighbourhood Plan, but we need your consent to do this.

Withdrawing consent

You can change your preferences or withdraw your consent at any time by contacting the Council by email at: dpo@chippenham.gov.uk. Our Privacy Notice is available on our website.

I consent for my personal data to be used in connection with the Neighbourhood Plan.

- Yes
- No

What is your age?

- 0-9
- 10-19
- 20-29
- 30-39
- 40-49
- 50-59
- 60-69
- 70-79
- 80+

Which gender do you identify with?

- Male
- Female
- Other (Please specify if preferred)

What is your postcode?

What best describes your household?

- I live alone
- I live with unrelated people
- I live in a family with multiple generations
- I live with my partner

Which of the following ways would you be willing to be involved in the preparation of the Neighbourhood Plan?

- I do not want to be involved
- Responding to surveys
- Voting in the Neighbourhood Plan Referendum
- Distributing Information

If you are willing to get involved with the Plan, please provide contact details:

First Name

Last Name

Address

Email

End of Survey (On Submission)

Thank you for participating in this survey

Your input is valued and will help us shape the Neighbourhood Plan for Chippenham. if you have a few minutes to spare, please complete our additional Climate Change & Sustainability Survey which you can access at the link below:

Climate Change & Sustainability Survey [[Link](#)]

Question 15, 16 & 17 (open ended responses - table)

Q15 Overall, what is your favourite venue or location in Chippenham?	Q16 Why do you like this venue or location?	Q17 What improvements would you like to see to this venue or location?
Chippenham Museum	friendly, interesting, variety of activities, educational, centrally located and free	
Monkton Park	Beautiful, widely used, outside.	Less drug detritus, less empty bottles early in the morning, a lot less groups of drunk/drugged youths sitting in the centre.
Chippenham golf club	Ability to meet people, walk, exercise, enjoy golfing challenge, enjoy the outside world and views of Chippenham. Good eatery	Improvements to drainage
Monkton Park	Peaceful by the riverside, often wildlife present	The riverside kept undisturbed so as to encourage wildlife.
N/A		
Library	Central, quiet, well stocked, friendly staff	Toilets
Grounded	In the absence of anything of the right size these are the only ones available. Need too big for many community meetings	Leisure centre is off-putting as the pool is a state so generally avoid this and go to other towns and use other venues.
cinema	its nice and smart and i like watching films	none
John Coles Park	Easy Access and Bandstand	Nothing
The whole town is a hit with us, that's one of the reasons we moved back here.	It isn't too big (yet) and apart from poor access to the Monkton Park area the infrastructure is pretty good including excellent transport links.	A second access road into the Monkton Park area as currently there is a massive lot of activity in this area including the train station and were there a disaster of some sort say at the train station access by the emergency services ect would be severely hampered.
Just the green open space in Chippenham		
Chippenham sports club	Lots going on met lots of people there	
Cafes in town centre. Sarah Jaynes	Friendly and independent.	Cheaper parking

High Street	Cheerful. Useful. Pleasant.	More occupied shops . Independant and chain stores.
Stanley Park	Gets both my children outside playing football and socialising either with their teams or friends. I also use it for playing football with my adult friends.	Walkways built around pitches and down side of 3G pitch.
Monkton Park	Riverside walks and the Folk Festival	Community educated not to feed the swans.
Cafe India	A family run business where you are able to chat with friends (no football or music to shout over), super food, lovely welcoming, attentive staff, good value for money.	This venue is fine the way it is. There are other food type venues in town that are not so hygienic, i.e filthy menu's
Coffee 1	Ideal place to sit chat & watch the world go by	almond Milk as an optio
John Coles Park	love the bandstand concerts. lovely trees and surroundings. able to park nearby(on the road)	
John Coles Park	Its clean, well maintained, has access to a cafe and toilets and a safe play area for small children.	None
The Old Road Tavern	Proper pub with a great music scene.	
The Olympiad	It caters for adults and children and there are lots of activities.	Free car parking
Stanley Park	They provide amazing Goalkeeper and Football training and facilities, but also share their grounds with others	Like to see improved seating and shelters for parents and more reliable coffee machines
Cepen Park north	Nice walking routes. Sense of community.	
John Coles Park	Beautiful gardens when you can sit and appreciate the natural surroundings	It doesn't need extra just to be maintained
Chippenham museum	Friendly and inclusive	Make it bigger
Jolly's Irish cafe And neeld hall	Authentic, good food, good value. Neeld hall is good sized venue for gigs.	Better gigs, bigger profile acts like Adam Hills was excellent. Better marketing required.
John Coles Park	Beautiful park, well kept enjoy the bands playing in the bandstand	None
Rivo lounge	Relaxed atmosphere, good for social gatherings	Cheaper drinks

Monkton Park		
Wilts and Berks Canal at Pewsham	Accessible open countryside	Better car parking
The Citadel Hall	Always impeccably clean and well-stocked, really well managed by its owner who takes a personal approach to all users of the space, central location, secluded (as in hidden away from the hustle & bustle of the town centre so a calming and relaxing atmosphere) - a real hidden gem!	Just that more people know about it and use it - it's so easy to miss due to its location, but it's a travesty not to be used more!
John Coles Park	Attractive, spacious and great for the kids	Updated/larger play area. Clean, better maintained hard surface area, it is spoiled by teenagers
Monkton park	it's big enough that there is room for everybody	more parking available
Santosh studio	Beautiful space to practice yoga	None
Chippenham Library	Welcoming staff, a fantastic children's section, varied, educational and interesting children's activities.	More investment to care for the facilities.
None, I prefer to go to Bath.	Better amenities. Events are publicised and easy to find.	Chippenham needs better, fit for purpose facilities and improved listing of what is happening/where and when. It is very hard to find what community groups are in existence.
Riverside Walk/Pewsham	Open space adjacent to river	Bigger car park
Stanley Park	High quality facility.	Another 3G pitch. An area for "free" recreation.
john coles	Walk the dog	More sports groups for kids
Monckton Park	By the river, clean and good paths to walk	
Monkton park	Well maintained quiet park	More landscaping
I like that there is a new Lidl	Cheaper food to buy	None
Rivo Lounge	Very friendly and welcoming staff. Safe for families, dog friendly. Good food, drinks and beverages. A spacious clean venue	None
John Coles Park	It is close by and has many different uses and landscapes.	Can't think of anything at the moment.

Riverside walking paths from east of Monkton Park around to Westmead open space and beyond	open air; wildlife; natural environment	paths, bridges and signage improvements; a few more seats/benches; litter etc removed.
Monkton Park	My husband is disabled and uses a motorised scooter. The paths are good and lots to look at.	More accessible places to walk.
Stanley Park	It is modern and well run and a 1st Class facility	There is nothing.
Riverside walk	Lots to see and often can walk alone	More attention to litter
Monkton Park	Easy walking distance from my house and handy for central Chippenham	Happy as it is.
Westmead Open Space with Mortimers Wood	Trees, water, beautiful little walk right by the water, long stretches of path to run along. Perfect! Same applies to Donkey Fields.	Keep the stinging nettles under control - they blocked the riverside path last summer making it impassable for a few month and were a problem on pretty much all the paths I run round Chippenham BUT please do it sensitively, not just hacking back all the greenery and destroying the habitats and beauty. Public toilets at Westmead Open Space would be helpful if it would be safe and practical to do so.
Town centre	Communication	Revamped for a modern sge
The Garden	Locally produced food and independently run cafe/restaurant	N/A
N/A		
The Three Crowns	It's a very friendly pub with excellent staff. No such thing as strangers! Also a very good selection of beer and cider, many of them from independent local producers	Traffic calming measures on the road outside to stop the Boy Racers whizzing past
Mortimores Wood	I help maintain it as a volunteer. I can walk to it. My dog loves it. We should preserve as much habitat as issuable for future generations.	You cannot make more ancient woodland but can preserve all habitats we have left.

Chippenham RFC		
Riverside Monkton Park	Peaceful with some wildlife to watch on the river.	A better walking route into town centre with an attractive waterside cafe.
Stanley Park, Monkton Park and John Coles Park	Outdoors	
Neeld Hall	Size, facilities and location	More and better productions, with fewer tribute acts and more original performers
N/A	NA	NA
Monkton Park (without the multi-storey carpark)	Beautiful public open space that I use for relaxation, picnics, playing with the kids, sitting by the river, walking running (Park runs or annual races such as the River Run), attending various community events. All about to be significantly spoiled by Wiltshire Council building a five storey multi-storey carpark right on the edge of the park, creating pollution, noise, ruining the view and spoiling this valuable public space forever (or at least until it gets demolished).	Demolition of the multi-storey carpark that is being built; Replacement of trees along the river bank (previously cut down or allowed to die, and not replaced, by Wiltshire Council); Better screening from the Emery Gate shopping centre and carpark across the river (e.g. by trees and shrubs on the opposite bank); Introduction of a wildflower meadow; Planting of trees to screen off the 5 storey multi-storey car park that is being built on the edge of the park.
Neeld	Large	Better bar area
The Garden	Excellent service	None
		Segregated Cycling infrastructure, cycle lanes and cycle parking.
Baydons Meadow	It's a chance to improve the environment.	
Cinema	It is a smart building and local at a reasonable price	None it has been refurbished recently.
Hardenhuish School	The Gateway club is very worthwhile	
No overriding preference	See above	N/A
Church	Because it is the only place where I am a part of a community and have friends	None
Old rd tavern and John Cole's park	Atmosphere and character, and interesting variety of things on offer	Old rd is fine as is. John Coles park has a dog problem, far too many and some out of control. Chippenham has almost nothing on offer for children 10+
Rivo Lounge	It's a great place to meet friends	More seating

John Coles park	Walkable for is, lovely green space for kids, great cafe, great playground/splash pad/well kept/ music from local bands/ something for everyone	
Cinema	Newly refurbished.	None
Chippenham Sports Club	Friendly welcome for sports enthusiasts and HQ of the Chippenham Wheelers	Another club room for the cycling club to meet
The Neeld	Good space, easy access, pleasant environment.	Cheaper tickets
Neeld Hall	Lots on. Good central facilities	
not sure I would have just one fav.		not sure I can think of something to improve one location but more activities for the youth to do would be amazing.
Chippenham Park Bowls Club	Sport and recreation	Better car park facility
Town Centre	Shops	
John Coles Park	Very pleasant, well kept park with good play facilities for children.	Pay on card at the kiosk.
John coles park	Take it away Chippenham has nothing, it is such a beautiful outside space	Bigger car park
The Cause	Small size, welcoming atmosphere, live acoustic music	More events
Monkton Park and the Sustrans cycle path	Open space and easy access to the countryside	No alcoholics in the Island park, a few more litter bins
john coles park	bowls and social activity	car parking
John Coles Park	Well tended, good space: running trail/ markers for keeping time and distance	more controls on dog walkers and loose dogs
Mookton Park	Easy access, clean well kept, pleasant walking, meet friends and it's free with access to meadows and river side walk.	Conversation bench.
	It's nice	
John Coles Park	Bands in summer, small shop for food/drinks, open space with a combination of flowers and field	More events held at venue, for the fountain to be looked at/maintained, possibility for some renewa
Monkton Park	the River Avon	Path aught to be extended out beyond Monkton Park estate

Rivo Lounge and Monkton Park / river	Atmosphere / ambience Relaxed / waterside / bird life.	River: A small landing stage for boats and canoes. Maybe a couple more picnic tables? More information for walkers re biodiversity and routes to take.
John Coles Park	The way it is looked after and the variety of things there such as band stand concerts, activities for children, kiosk and the beautiful park itself.	more events in the band stand such as a winter programme or maybe a one off Christmas event /band.
Chippenham folk festival v	Chippenham comes to life brings in the crowds a very colourful lively event	
John Coles Park	Well maintained, good facilities	More action on anti-social behaviour (youths using MUGA area for drug-dealing and taking)
Monkton Park	Close to the office, well maintained, nice river walk	More benches, picnic benches
The Island Park	A green space at the heart of the town.	The area at the back of Tescos known as Friedberg Way is neglected and the small gully is regularly full of rubbish
The riverside walk my Monkton park	It's clean and beautiful and peaceful, well looked after and entices me to get out and exercise	More lighting so that I can run through Monkton park
Riverside walks	Nature, countryside, interesting, good for everyone	More walking and cycling routes around chippenham for leisure. More recycling bins, historical facts along route
The Citadel Hall	Always welcoming, clean, tidy. Staff very knowledgeable and helpful. Staff always on site to help. Great central location. Next to large car park. Near all local shops, cafes etc.	Better signage
JC park	Beautifully kept; friendly park keepers; accessible & good for children close to home	
Old Road Pub	A proper pub	Open later
John Coles Park	It's beautiful, safe, clean, great for kids, lovely cafe.	Toilets are in desperate need of an update, they've been like that since I was a child...quite a long time ago. The steps into the toilet are also not

		convenient when you have small kids and a baby in a pram.
		I would like the swimming pool to be updated, clean and useable (even add other private ones). I've lived in Chippenham for 15 years and haven't dared ever use it because it looks so dirty. This is a frequent point of discussion with other families I know.
N/A		
Rivo Lounge	Friendly @ meet lots of people	
		Parking, in particular deduction on entry fee if bought parking ticket
Olympiad	Only worthwhile swimming pool in Chippenham	Also entry should be available from lower ground floor on town centre side, rather than having to negotiate very steep very slippery steps between olympiad and council offices
John Coles park	Kids like play area & splash pad, nice café, can take bikes, pretty, close	fountain working
JC park	Pretty Clean Family orientated	
The library	It's inclusive and provides a safe space, information and computer access to those on a lower income. Encourages literacy and learning. A place to find out about what's going on in the area. Friendly staff.	Toilets - it's difficult to spend much time there with a young child! A bit of a makeover to make it more inviting and comfortable. Even more books.
John Coles Park	Well maintained, peaceful and beautiful open space.	None.
Hardenhuish Park	I enjoy watching Chippenham Town Football Club	Bristol Road car park
Chippenham Sports club	Classes run by Sheila Copeman, Zumba, Pilates, Fitsteps. Do not use children's venues as an retired .	None

Reel Cinema	Recently refurbished, good pricing, good range of films	To be able to purchase tickets online and be able to have them scanned from your phone, rather than queue up to have them printed out
We don't have any	No comment	No comment Pretty poorly designed questions
Walk by the Canal	Calming and lots of wildlife to see	Ease of use to Lacock
Monkton park and river	the large open space connected to the environment. The new path past the golf course has opened up and connected the fields to the park and is a wonderful space for all ages	A more comprehensive play park, something along the lines of corsham Springfield's which is highly comparable space with the leisure centre and community hub alongside the play parks and fields. This would make the park more of a destination and could flow out of town for all users of Chippenham.
Chippenham Museum	Great array of exhibits showing the history of the area coupled with great interaction with the people in the area and bringing history 'alive'	None spring to mind
Chippenham Museum	Really enjoying the regular workshops held there and the exhibitions and events are very imaginative.	We could do with expanding the area around the museum to be a community hub for Chippenham. There is a lack of a focused space like Corsham has, or a venue like Court Street Gallery in Trowbridge.
Jcp	Play area, bandstand and bands playing	
Stanley Park	Fantastic facility for football development and embedding healthy lifestyles.	Another 3G pitch. Larger internal cafe area for parents and meetings etc
At peters	Flexible and affordable	
castle combe sportsfield	Its beautiful and dedicated to just letting kids play	3g pitch
Monkton park	Lovely green open space with room for all	Something better for children
Grounded	Next to river, indoor and outdoor space, cafe bar	Community run Better menu
Stanley park	Football brings the best out of me	In my opinion your never gonna not ask for funding, I'm 17 and some more cash would be great and make it an even bigger and

		more competitive sports facility.
John Coles Park	Very versatile - I can run, walk, have visiting kids play. It's also really pretty and kept clean.	Encouraging people to walk there rather than drive because parking can be a nightmare.
John Coles park	Clean, tudt, accessible, enjoyable	
Monkton Park	The peace and quiet. The views down to the river and the trees.	More waste bins, including dog bins and more frequent emptying. Music events brought back.
Chippenham museum	History	
Cinema	Newly updated and safe space for entertainment.	
John Coles Park	The openness and cleanliness and general upkeep	More planned activities and events
Monkton Park	A wealth of opportunity for all ages to engage in outdoor activities from fishing to walking, exploring the wooded bits and the play area	I'd like to see improvements to the play area for older children/more adventurous play. I'd also like to improvements to the wider Water meadow beyond the golf course to ensure it stays a wildlife haven but facilitate access to it.
Stanley Park	Children's football, good for walks runs and bike track	Better and more seating and shelters for matches.
John coles Park	It's outside and kept tidy	
John Coles Park	Clean and well maintained, lots of activities and can bring both the dog and my child for a free afternoon out	None, it's great!
John coles park	Clean, tidy and secure	Better fence around dog area
John Coles park		
John Coles Park	Well run, plenty of variety and has a great atmosphere	Better security - there is a lot of drugs related activity there.
Park	Peaceful, nature, quiet, wildlife	Nothing
John coles	It's friendly, child friendly and local	More music
John Cole park	It's big and children friendly	Splach pad should me monitored, too many children at once and bigger children sometime undressed

Monkton Park	It's open, green, has beautiful views and hosts some great community events, as well as being a lovely location in all weathers	
John Coles park	Good facilities	
John Coles Park	Well maintained; clean; great facilities; super location	Can't think of anything!
Monkton Park	Great for walking, meeting people.	More events
History Centre	Peaceful but there's lots to find out there and lots to do eg. going to talks	More events at different times of eg. weekends
John Coles Park; the National Cycle Network Path through MonktonPark; St Andrews Church and King Alfred Hall	Historic, well maintained park, good for all ages and easy to get to.	Better catering - the kiosk sells items that are loaded with sugar. How about better coffee there, and healthier snacks eg popcorn and fruit.
John Coles park	The facilities, the layout, the cafe, the summer bands etc..It has a sense of a place of community gathering for all generations that does not involve loads of money.	Continued upkeep.
John Coles Park	It is well kept and good facilities. Sadly on the northern side of Chippenham. Monkton Park has potential now under control of Town Council	None
St Andrews Church	Friendly people; welcoming; beautiful ancient building with historic pipe organ	Renovation/rebuild of the organ
Chippenham Sports Club	Various sports - tennis, cycling, running, bowls, and social activities e.g, skittles.	Double in size to provide additional sporting facilities for the growing population of Chippenham and surrounding villages
Library	Books!	More variety in new books for teens
John coles park Cafe Nero	Right end of town	
Neeld Hall Chippenham	Helpful staff, information on travel, good range of social activities (groups, plays, dance, talks) for a reasonable fee. Good toilet facilities	A cafe for daytime use. Lillies is no longer open. It would be a good daytime meeting place. It could also serve pre-theatre meals
Stanley Park	Great facilities	Improved entrance of the A4 Improved cafe facilities Another 3G football pitch

		A fenced off dog area in pewsham park
John Coles Park	Versatile, well kept and close for us	Better information about sporting clubs and facilities like Tennis. Maybe toilet facilities expansion.
John coles park	It is well kept, the bandstand gets used, it is a well used amenity	Better cafe facilities
John Coles Park	It is beautifully maintained and a wonderful community space to enjoy with my family.	None
John Coles park	Cafe and open spaces	More seating
John Coles Park	A lovely well kept green space, a very friendly good value cafe and excellent children's play area.	
Any green space!	Fresh air and countryside/nature is very important to me.	Paths are generally OK but the ones down by the canal could be better. Many parks in Europe have outdoor gyms. Something like that here would be great. Better lightning would make them more usable for more of the year.
John Coles Park	Well looked after space, with facilities for different age groups.	Better restrictions on car parking in the vicinity of the park.
Monkton Park & the River	It's great for walking and cycling through plus it's peaceful and a good place to look and listen and live in the moment.	All of the edges should be seeded with wild meadow flowers and left un-mown to promote insect life and colour. Each of the trees should be labelled with the Common name and the Latin name. Every year, a minimum of 10 new saplings should be planted. A notice board should be erected displaying the six graphs detailed in www.climatelevels.org alongside a list of which Chippenham businesses have so far added solar panels to their roof space and the % coverage of each Chippenham ward (and it's councillor's name)

Neeld	Offers wide variety of shows and events and it's a central location	More staff on the bar as sometimes a long queue before event.
Town centre cafes	Meet friends	Less traffic in town centre - especially on new Road near the town bridge (outside Rivo Lounge and Grounded).
The raj	The best Indian food	None
River Avon	Wildlife corridor that runs through the centre.	Encouragement of biodiversity and tree planting. Control of the invasive species, Himalayan Balsam. A plan for the area upriver from the golf course and on the opposite bank from Baydons Meadow.
John Coles park	The park is well maintained with colourful flowers. There is a refreshment hut and a band on a Sunday from May to September.	There needs to be somewhere to shelter from the rain and cold while having a cup of tea.
Monkton Park	Its on my doorstep	Empty the litter bins more often
The beautiful countryside surrounding Pewsham	Rivers, Trees, Flowers, Family time.	None
John coles park	One of the only places for kids entertainment	N/a
LIBRARY	They are immensely valuable, free spaces for all age groups.	Modernised. Outside of the building could be improved. Incorporate a cafe like the library at Corsham.
Olympiad	It is an essential and well used facility in the the town - it is easily accessible and provides all round sporting activity facilities.	Improved building, toilets and social space; general improvements to the venue are needed not piece-meal sticking plaster; More focus on Chippenham community and the ability to advertise and encourage participation from locals. Facility is currently an external outfit with no means to advertise or promote itself within Chippenham.

Appendix 2

Question 18 (open ended responses - 'Other' answer option)

If you were in charge of community infrastructure in Chippenham and you had £1,000,000 to invest, what would you put the money towards?

- A running track at Stanley Lane, Sports club or the Rugby Club.
- Footpath and cycle path maintenance
- A makerspace or repair cafe
- Youth activities
- Bring the slides back to the Olympiad
- Development of the riverside
- Youth (teenage) facilities (not sports just meeting)
- Wilts and Berks Canal restoration
- An independantly run Sports Ground
- Children activities but also shops that will be used as there are many shops opening and closing around Chippenham
- More green spaces/ open areas to run around or walk through
- Toulets
- A Mens Shed
- Green spaces and green infrastructure
- Cycle infrastructure
- Proper cycling paths so people can commute without fear of traffic
- the Olympiad, needs a new 50m swimming pool
- Mental health, homelessness support
- Designated cycle lanes on highway infrastructure
- More logical connected cycle path network, for instance connecting cycle track alongside A350 from Kingston St Micheal onto Malmesbury Road, currently it is impossible to join this cycle path if heading north
- Family space - play park, community hubs, open space
- Another 3G pitch at Stanley Park
- Reopen the outdoor swimming pool
- Stanley park 30% and to be honest I'd not spent all the money cause pot holes are really bad in areas in Chippenham.
- Chill out hub
- Youth services, outreach, skateparks climbing walls with provision to support
- Olympiad needs massive improvement
- Upgrading the Olympiad to make it clean and modern like the sports campus in Corsham!
- More natural wildlife areas to walk, exercise and spend time in
- Fighting Wiltshire Council over the unneeded Ring Road
- Linking estates to town centre , creating more green and community spaces.
- Family entertainment venue e.g bowling, ice rink, decent swimming pool, activity center (climbing etc)
- Split it between a new arts centre and green space improvements.
- Car free town cetnre (including New Road) with trees and nice street scene. A pleasant twon cetnre are to come to.
- Improved cycle routes
- Improving Olympiad and surrounding sporting/boating/outdoor facilities

Appendix 2

Question 19 (open ended responses)

Is there any community infrastructure that you think is missing in Chippenham?

- Community hubs in vacant shops in town; opportunity for 'pop up' events in unused spaces; opportunity to grow food / use all green space
- More sports equipment, areas. A better swimming pool is also definitely required.
- Men shed, repair shop, rowing on river.
- Off-road cycle paths to enable people (notably families and less confident cyclists) to access community facilities without driving
- Need more emphasis on environment and wildlife.
- Yes, more activities for kids
- Decent swimming pool. Velodrome. Better cycle network is long overdue
- family orientated leisure eg bowling complex with swimming, sports, and entertainment venue
- Just community spirit. I moved here a year ago and still don't feel welcome here. Community events are not well advertised or attended. The focus here seems to be on the very young or the very old. The rest are mostly not catered for. I do think a makerspace could help for the rest. It would help people's skills and teach sharing and mentorship
- No
- "Dedicated elite athlete training venue even if it only included field activities including Pole Vault and a short sprints track. A velodrome. A really large venue capable of hosting large concerts. A continental style fitness trail (Trim Weg) woodland setting with a marked out course dotted with natural built exercise devices.
- Religion seems to be a root of far too many problems through history and in current times. We are but one species and for goodness sake the environmental issues and current pandemic we currently face can only be addressed properly by joined up effort worldwide."
- I'm not sure what the definition is of 'community infrastructure' - however, Chippenham as a whole needs a re-think. There needs to be more investment in the High Street, traffic system whereby everything has to go round the Bridge centre, more joined up thinking about new developments and their facilities - why is a new primary school being proposed at the Birds Marsh development when Kings Lodge on Pewsham is struggling for numbers.
- Anything for older children to do, skate park or playground equipment for older kids
- We use the gym in Corsham so a lot of the questions were not applicable
- Youth
- Skate park for the kids
- Riverside development
- Litter picking as seen in Calne
- Areas of shopping are fragmented, a consolidated precinct with adequate parking would be beneficial. High Street could be set aside for arts, craft, leisure, social, cafe outlets and street entertainment.

- Don't know
- A better swimming pool and changing facilities. The current one is terrible. It's not a pleasant place to visit, even though the staff do their best. It needs to be something more like oasis to encourage more to use. Such a shame the olympiad hasn't been maintain or the flumes repaired. Also there are no other in door based activies for kids. No bowling or ice rink, or soft play or trampoline park
- Independent shops in town centre.
- I believe Chippenham has many options for people if they are interested in the community
- A big youth venue like the Bridge centre
- Better arts centre, for learning and stuff, like the pound in corsham. Neeld hall needs to be better for comedy and music gigs.
- "Indoor play for young children
- More youth clubs for older/teenage children"
- Better promotion of the spaces and groups that are available in the town is sorely lacking. For example, I hear there was a recent Fringe Festival initiative in the town, but I heard barely anything about the events on offer until it was all over! In this day and age, marketing adn advertising shouldn't be too hard to coordinate and facilitate!!
- NA
- Green infrastructure, healthy food. Too many unhealthy takeaways causing obesity and litter.
- "Cycle paths that extend out of the town, e.g. towards Lacock.
- A well-cared for leisure centre.
- More involvement of children and families in environmental issues."
- Chippenham needs better, fit for purpose facilities and improved listing of what is happening/where and when. It is very hard to find what community groups are in existence.
- Cycle ways
- "Leisure facilities such as a bowling alley.
- Additional 3G pitches."
- More arts and entertainment. Performances and involvement opportunities.
- There are no facilities for using the river, and most of the river bank is overgrown or inaccessible.
- Not really
- Chippenham has been identified as having an under provision of Parks, Open Space and Recreational Grounds in the South West of Chippenham. indeed, most new developments in the SW of Chippenham have not had the improvement in Infrastructure to cope with new development. Simply put, Houses Houses Everywhere, Infrastructure We Don't Care! This has to stop as Chippenham deserves better.
- Cycle paths, solar panels, zero waste shops
- more fitness space - refresh and extend the Dome or simliar - always booked out and not enough space or parking for all those who want to use it
- Less Café' as we don't need so many
- Not enough clothing shops, means many of us have to travel to bath or Swindon. A KFC outlet would be nice
- A more suitable theatre space - the Neeld Hall stage is very high and has limited backstage facilities.
- The Monkton Park facility has nothing. No money is being spent on this park it seems. The Olympiad venue needs investment. The gym kit needs updated and also the Health Suite needs sorted.

- Outdoor activity centre for older children
- Cycle lanes, cheaper/more frequent buses with more routes, more regulation over dogs off leads in ALL areas (lots if owners seem to ignore guidelines)
- Sensibly planned outdoor meeting area
- Canal restoration
- The pavements are lethal and in need of urgent repair some of them are very loose and dangerous
- Encourage others to take pride in the town. Prettify bare walls and unloved wastelands.
- Not sure this counts as infrastructure but much better use of the riverside
- I think it is high time Chippenham High Street was PERMANENTLY pedestrianised. After 6pm at night it's a rat run with Boy Racers whizzing through it. There's no need for this! It should be closed to motor traffic. At the last Council Elections one of the candidates argues it was necessary to keep it open to provide extra road capacity at Peak times. I DISAGREE! The council should be encouraging more environmentally friendly options such as walking, cycling and public transport. I also think it's about time they re-opened the Chippenham to Lacock Cycle Path and safeguarded the future of the Chippenham to Calne Railway Path. At the moment I understand they've only renewed the lease for 5. It needs to be made PERMANENT!
- Yes - not enough provision for teenagers and young adults.
- Improve Neeld Hall offering
- Riverside cafe
- I think a stronger/safer cycling network across the town would help with many of the points mentioned above.
- "Skate Park
- Climbing Centre
- Better cycle infrastructure"
- Poor cycling and walking links near Malmesbury Road
- "1. Not enough Community halls and facilities for people to hire/groups to meet;
- Not enough bike stands in the town and none whatsoever at the Town Hall, which should be leading the way on encouraging people to cycle into the Town Centre - this includes its own staff, councillors and the public. Town Council needs to wake up.
- No running track - Chippenham Harriers Youth have to run on the streets for much of the year (breathing in car exhaust fumes and risking traffic). There is no single all weather running track in the whole town, Why not at Stanley Park?
- Not enough meeting rooms or places for community groups to meet (e.g. the Town Council charges for people to meet there, even when the facilities are not being used and most community groups can't afford to pay £40-50 per hour to meet, so have to meet in noisy cafes instead. The Town Hall is a public building and the council should allow not-for-profit community groups to meet there without these prohibitive levels of fees).
- Not enough EV charging points in the town - why hasn't the Town Council got an electric vehicle charging point at Stanley Park - this would be an ideal venue for one. Needs a fast charger, so people can bring their kids, watch the football match and charge while they're waiting. It could

- use PV on its roof to generate the electricity.
- Woodland - trees have disappeared over the years and not been replaced. Woods are important community infrastructure. Why doesn't the council plant trees on the land it has taken over from Wiltshire council. Especially around the River Avon, which is floodplain and ideal for trees. Would improve people's enjoyment and landscape views. Also good for wildlife. Lots of community support for this but nothing being put forward by the town council.
 - Carparks on the perimeter of the town on main bus routes and/ or with bike hire or good direct foot routes into town. Demolish the old carparks in the middle of town that encourage congestion and cause pollution in the town centre.
 - Sheltered bike stands to encourage people to cycle into town;
 - Bus shelters with real time electronic timetables (to encourage use of public transport);
 - Electric taxi stands (to prioritise electric taxis in and around the town centre."
 - No
 - Not enough Drs Surgeries or Dentists
 - A traffic free central plaza. The area outside Revos and Grounded could be pedestrianised.
 - Develop the shops and opportunities in the town centre to encourage people to attend and spend their time in town
 - A Men's Shed (I am a member of the Melksham Men's Shed)
 - No
 - "Something in John
 - Cole's for older children and adults like outdoor gym equipment"
 - Communication of what is out there does not appear to be in any one central place. Each venue or group has its own communication methods. it would be good if there was information more centrally available.
 - Youth activities and a better medium sized venue with a better program than the neild hall
 - Electric car charging points and renewable energy schemes
 - "A soft play for younger children
 - More choice in arts/entertainment (new cinema is great) - better quality musicians/entertainers to visit our venues
 - another green space/park for children
 - better quality pubs/restaurants outside the town centre (eg- sheldon road area or north side of town)"
 - Better cycle lanes
 - Decent cycle paths
 - Can't think of anything
 - Cycle paths around town
 - YES! I would love to build or manage a children's activity centre with a soft play (big enough for a range of ages) but also a bowling alley or laser tag for the older children. like a bigger leisure centre where there can be a cafe for meeting new friends and parents can supervise their children in a comfortable happy environment.
 - Children activities for the over 12 years olds
 - Corsham has Springfield Community Centre which seems really good. Something like that, but possibly bigger in Chippenham would be great.
 - outdoor swimming pool
 - stronger environmental approach to litter and graffiti
 - Bring more varied independent shops and entertainment into town centre, more plays/drama in Neild hall
 - A proper swimming pool

- It'd be nice if we could look at running more events for the community when isolation is over, and it would be great if there was the option at looking towards renewables/environmental improvements that the community could take part in.
- Adequately maintained basketball courts
- I'd love somewhere to go skateboarding in Chippenham. I have to go to Bath or Devizes for the nearest outdoor and indoor facilities (respectively).
- a better sports / leisure centre
- Not missing, but the Olympiad is past its best
- The Town Council should consider buying or taking on the management of Birds Marsh. This valuable habitat is neglected, underused and almost impossible to visit because of the housing being built. When the housing is complete, Birds Marsh will be on the fringe of a large housing development and will be subject to misuse. It could be formally managed and adopted by the Town as a recreation park.
- Some kind of joined up community hub
- "Cultural aspects have got better but the causeway should be enhanced it's a beautiful building which needs looking after and using more.
- More cycle routes to encourage safe cycling for all.
- Reduced speed limits in town and near schools
- The pubs are not very nice for family / date nights out"
- Somewhere for teenagers and young people to meet without being a nuisance to others , this includes the boy racers who meet in the car parks
- Segregated safe cycle routes that are connected throughout the town
- There's no decent soft play?
- Somewhere for teenagers/young adults
- Decent swimming pool - bigger, cleaner and with lots of useable times
- Play cafe for parents with kids (not church based!)
- As above re cycling infrastructure
- A kids' large softplay. Currently everyone has to drive to Calne/Melksham and there are not many indoor activities available everyday. This could be combined with sth for older kids - climbing wall maybe?. There are suitably large disused buildings with ample parking near the train station. This would be great for friends visiting who could come by car or train, keep people (and their money!) in Chippenham, use disused buildings and provide something for families to do on a rainy day. If combined with a climbing centre then it would be gret for adults too. Also people in Chippenham could walk/get the bus/not drive so far.
- Leisure centre could be updated and expanded
- Perhaps a bigger space preserved to explore nature. Community gardens. A Repair cafe is a great idea which is being developed. Perhaps a community fridge or food swap venue.
- "One stop shop type of meeting/group/activity reaching out to older people in the community.
- Held weekly/monthly help and advice on available."
- A network of cycle paths linking every school in the Town
- Central hub with information centre, rooms for small clubs to use (eg knit

- and natter, art groups) , health and lifestyle activities
- More for teenagers to do
 - "Pool is too small convert magistrates court to pool / health centre community venue
 - Lost big venues upgrade town to mirror as it was more riverside cafes more covered markets"
 - Decent shopping and parking
 - A community hub on monkton park for the elderly and young families to use as meeting space, club base, hall hire. One space up there could benefit so many different groups of people and allow the community to come together.
 - No
 - See my comment above.
 - Indoor football. Bowling alley
 - Things for older children 11-17 year old
 - 3g football pitch to the west of chippenham
 - Youth clubs for teenagers. Spent much of my youth in the Bridge centre - much missed
 - "Arts centre
 - Community cafe"
 - LGBTQ group, I'm gay so id love to see Wiltshire council set up a group like this in Chippenham which we are lacking.
 - Yes more help for valuable Adult and mental health as there nothing for then only one day a week that mind and riverside I just say it pooling that chippenham dont care
 - More (free and cleaned) public toilets.
 - Will be the public gatherings that the BiD organised. Hope at least some of these will continue to bring the town communities together - especially after lockdown!
 - More spaces for safe youth activities
 - Not enough parkland that's safe for dog walking and bike riding
 - Smaller community led local area events needed more (street parties but welcoming everyone not just the street). Music, stalls etc but local to an area so that it can be volunteer run!
 - Bowling center and soft play centre
 - Somewhere for children to do ten pin bowling rock climbing wall internet cafe and soft play and youth club all in one place
 - Better local parks near communities in chippenham. Not just one good central one. A lot of localised parks have gone or are rubbish.
 - Community gardens, orchards and farms
 - I travel to Corsham to visit Calmomile Cafe, where I can have a cake and coffee while the children can play safely, and I travel to Warminster for a toddler cooking class. If either of these existed in Chippenham I'd happily swap.
 - Bowling alley
 - Most. I travel out for almost everything.
 - Outdoor gym
 - Places for ypung people to go and hang out saftely. Skate park
 - No
 - It lacks a main post office that's easily accessible from the town centre.
 - A dedicated space for the arts would be great!
 - Better established and wider variety of arts and culture, particularly art and plays
 - Better cycling provision - eg safe routes and cycle hire at weekends.
 - Expanded market with more local produce and stalls

- A southern linkroad between the A350 and the A4 to relieve through traffic in the town centre.
- It isn't possible to walk / cycle across Chippenham during the whole year. With development to the west public transport is not a option. Differing community facilities depending on what side of Chippenham you live.
- More spaces for youth activities
- The centre of Chippenham needs reinvigorating. Currently too many charity shops and cafes. It has wonderful historic buildings and riverside setting. It could so easily become like Marlborough with interesting shops and restaurants. Parking needs to be easier and cheaper or free to encourage people to come in to the town centre. And we need a lot more cycle ways and safe parking for bicycles.
- Meeting places for uniformed groups with reasonable rent and access to outside spaces. Could also be used for holiday/after school clubs
- Venue for youths ,bowling youth club
- Cafe in library linked with museum/gallery
- Art cafe for community - a place to meet, view art and maybe do arts and crafts activities as adults
- Unsure
- Independent shops eg baker, butcher
- Traffic free cycle lanes (but maybe that is covered later on?).
- No, facilities are there, just need more investment. Would like better acts at Neeld Hall.
- "So much ...
- A cycle lane on each road
- Three 12MW Halide-X wind turbines
- Flowers and trees on every possible spare soil area across the town
- 100% coverage of feasible roof space on all buildings"
- Yes
- Bowling alley
- Yes - no places you can hire for family occasions in Monkton Park. Or to have guises. scouts or other clubs.
- Outdoor exercercise equipment.
- No
- Dedicated cycle routes, especially to/from schools
- "Bowling
- Decent Swimming Pool
- Soft Play
- Proper Theatre"
- Entertainment venues and stuff for kids. We need bowling, arcade games, soft okay, skate park
- "Cycle lanes... Linking villages to the town and in the town..
- More EV charging points.
- Clean air infrastructure.
- Solar panels on all available roof space.
- Tree planting on a massive scale.
- Subsidised business rates for sustainable businesses.."
- Small arts/alternative theatre, comedy, music venue - in or outdoor

Appendix 2

Question 23 (open ended responses)

Name one improvement to Chippenham's 'Green Infrastructure' that you would like to see.

- protecting and maximising potential of every scrap of green space
- Less building on outlying land when there are plenty of brownfield sites to be used.
- Cycling paths
- Complete the gaps in the town's cycle network to enable meaningful journeys to be made entirely on off-road or very quiet roads.
- Active promotion of green corridors, protect the river corridor, increase tree planting and other environmental measures.
- Better parking near parks and green areas
- Better cycle network to join the town up. By far one of the most valuable changes the town could make. Introduce low traffic neighbourhoods policy.
- Improved cycle paths
- more outdoor activities eg wildlife walks
- Cycle lanes for my child to safely ride to school. The roads are busy and no cycle lane does not encourage people to cycle instead of using a car
- More connectivity between spaces.
- It is a massive shame that the Birds Marsh is being built upon - there's a clue in the name Marsh tends to indicate that building on this marshy area will be deemed utter folly in years to come.
- Stop building new houses on our green spaces!
- Stop selling off green areas within the town for houses and concentrate any house building on the outskirts ensure green areas r also kept
- More disabled access
- More trees and plants wherever possible
- More bins
- Not sure what this is. I know that there appears to be lots of building projects/developments taking away the green spaces.
- Better maintenance of rural footpaths & keeping drains clear to prevent surface water on country roads
- "better linking via cycle paths. the traintrack from Chippenham to Calne is excellent. very little other options for off-road cycling for non-confident cyclists like me.
- I cam from West Berkshire, where the cycle paths, and canal towpath gave many options for routes to cycle without having to go on roads"
- Development of green spaces in the Redland area - lots of green space with no community purpose, like play areas, planting, benches etc
- More outside exercise facilities
- More tree planting
- I'd like to see it retained, no building on the green space near the river or outskirts near the cycle paths.
- Connections into wider countryside
- Can't think of any
- Stop building houses in green belt land. Construct more cycle / walk routes away from busy roads

- Less dog mess
- Restoration of the Wilts and Berks Canal
- Less building on the lovely open spaces we have on the edges of town (which is where most of us escape to to get some 'proper' green space!).
- Stop building houses on our green areas
- Canal or riverside walks
- More walking and cycling routes into town to cut down on traffic
- Extended cycle and footpaths in well-maintained condition
- A clear guide of the green spaces available
- More litter picking groups.
- Several open spaces, especially more informal areas, have suffered from a lack of maintenance, making them less enjoyable. For example, in many places brambles have gotten out of control.
- When a Playing Pitch Strategy identifies the need to keep a sports ground open or to re-open a sports ground to address the under provision of Parks, Open Space and Recreation Grounds, then please don't ignore this and allow developers to build an estate, providing replacement facilities in an area which is not accessible to most people, unless you want to take your life in your hands to do it with replacement facilities that are "Less Than" previously existed and an estate that leaves Anti-Social Behaviour Areas behind, for others to address at a later point.
- Stop planning approval on agricultural areas close to Chippenham and create and respect a green belt. Build further out and create a proper bypass both east and west of the town with more local shops provision
- Cannot say as everything in my opinion is excellent
- Generation of electricity using the river by the wier.
- More shared path/cycle ways away from busy roads; improvements to the river frontage on both sides of the river from Monkton Park into the town centre. The high Street side has "turned its back" on the river - what a waste.
- More open saces
- Monkton Park is underused and under valued. Also other green spaces are being destroyed by the council selling the space off for House Building.
- Much more attention to litter through active messages about taking litter home etc
- More of it, especially over the Sainsburys/ Frogwell side of Chippenham. I have to run 1.5 miles at the moment to get to the nearest large open green space.
- Active community gathering area
- Adult Catering facilities in the parks
- There are so many
- Prevention of flooding routes to Calne and Lacock. Maintained better.
- less house building on sensitive sites
- More cycleways and footpaths away from roads
- Stop planting inappropriate varieties of trees in floodplain. Maintain the floodplain as wetlands - which are seriously endangered habitat. Plant the trees in more appropriate places. I know they help in flooding management once mature but what has been done in Chippenham is well meant but misguided.
- Improvement in the ugly town centre weir and energy generation
- It's tough to score the above point, all are equally as important in developing a sustainable healthy

community. I wouldn't prioritise any other the other, simply solutions that help them work in unison.

- Integrated cycling paths, properly maintained, signed and protected from traffic.
- Stop housing developments which destroy wildlife habitats and prevent easy access to countryside.
- More woodland, particularly along land close to the river, as this reduces flood risk (downstream in the town also), great for wildlife, great for people's enjoyment, improves landscape/ people's views, helps tackle climate change, provides mutiple benefits. Chippenham Town Council has a chance to do something here, after year's of Wiltshire Council neglect and missed opportunity but little seems to be happenng, despite community enthusiasm.
- More cycle tracks
- Dealing with down and outs who hang around Monkton Park
- Link them up with traffic free corridors
- Signs and literature to show the connectivity along the river corridor
- Protection of quiet spaces. The new planned housing near to Parsonage Way is a travesty which will remove the sanctity of the view across to Cherhill and the land. The town's road system and infrastructure cannot support the volume of cars that are soon to arrive. It would be nice to consider an improvement to transport and the protection of quiet tracks.
- Better Connectivity of cycle ways to each other and town areas
- Don't know
- Out of town parking with walking distance
- Improved cycle ways
- Cycle paths and improvement to pedestrian facilities. Safer places to cross malmesbury rd near John Cole's park, cycle and wheelchair access both sides of the station
- More open green spaces. Stop building on them!!
- More dedicated green spaces for wildlife/wild flowers/ mental health and well being - great place to walk and children to run freely and for people to relax
- More public space left to rewild.
- More benches for just sitting and soaking up the environment
- To have them better kept, grass cutting and more bins, or more parks, obstacle courses to keep children entertained during walks, nature hunts etc.
- More equipment for the over 12 years children
- Reopen the cycle track to Lacock.
- "More green spaces interconnected with good walking/running/cycling paths.
- Biodiversity areas, maybe slightly overgrown and with plants to encourage bees and other insects."
- Bigger park car park
- Clearer cycle routes
- Use of old, existing buildings rather than building on green land such as Birds Marsh
- more areas allowed to go wild
- retention of walking/cycling routes
- A proper cycle track ring road around the town with links to town centre. Off road where possible ie on the farm side of the roadside hedge using compulsory purchase if necessary
- Better playground at monkton park
- More options for community involvement with maintenance/etc - if there are volunteer drives being

run, etc, they should be provided with more visibility

- Road crossing / access to Avon Valley Walk from Pewsham, also more safe crossings from Frogwell to Allingtons
- Stop the HIF housing development and distributor road.
- cycle routes
- Joining up spaces to create green corridors linking centre of town out through residential areas to countryside
- More tree planting generally to contribute to tackling climate issues, but appropriate, considered planting including specimen trees in town centre green space and parks
- Don't build 7000 houses on the Eastern Side of Chippenham.
- Lighting to Monkton park by leisure centre along the river
- Walking and cycling routes more developed and easy to follow
- Clean up the river and its banks in the centre of town
- Connections via cycle routes safe for children
- Much better use of the Avon and walks
- You are building on all the green space. Completely agree we need more housing, wish options like birds marsh hadn't been used.
- Coffee shop in both parks
- Cafe and good quality playground in Monkton Park
- Improved connectivity on cycle pathways
- More opportunities to go on the river
- Update and improve Monkton park
- More rewilding, and preservation of banks, hedgerows, existing trees and natural spaces, not thoughtlessly cutting away or stripping back precious natural habitats and plant life. Embracing a more natural feel

to our public spaces - not manicured, lawn-type grass.

- "Nicer access to Monkton Park from the town centre.
- Better signage from bus/train station to parks/open spaces."
- More cycle paths
- More cycle routes and pedestrian links to the countryside
- Better use of area around the river by town centre. Approach to town from New Road end, not very inviting no nice planting in bare concrete areas around the bridge, maybe small independent stall outside the side of Superdrug. Open up the park area with more seating, wildflower areas.
- Less dog poo
- Improve canals add more trees move cars from town
- More river / canal paved (tarmac) walks
- Lots more use of the river for recreation and education. Classes and clubs based on the river and more engagement along the river. Connecting the river back up with the canal would bring so much money to the town along with jobs and opportunities.
- None springs to mind
- A move to preserve , improve and extend what we have already. Nibbling around the edges like the recent Chippenham Football Club car park should not happen. This area was given to the town to benefit all, not just one interest group.
- Cycle lanes and priority at junctions.
- 3g football pitch to west side of town
- Make more of the riverscape
- the lacock - Chippenham cycle route to be more easily accessed, currently the entrance and that is fine is when you get 75/80% of the way is it obstructive by a lot of over grown.

- By the bridge centre needs a good tidy and clean out and river
- Maintenance of rough paths such that they are wide enough for pedestrians and cyclists and without large holes with puddles.
- More areas to be made available
- More off road cycling for families with young children
- More cycle lanes/paths. Free car parking, so people don't drive further away because it's so expensive and less choice of shops in Chippenham
- Verges left unmown and/or planted to support insects and other wildlife
- More dog poo bins on walking routes, regularly emptied
- Better management of donkey fields
- Better management of public footpaths
- More green areas
- Cycle ways
- Provide more. Do not allow building on previous, ecologically important land like, for example, Birds Marsh and its environs
- Protection of adequate green space for flood prevention with all the housing development that's going on - much of which is upstream of the town centre.
- Upgrades to playgrounds in Monkton Park and on Audley Road would be great!
- Less building
- Can't think of anything, Chippenham has great array of green spaces
- Joined up cycle areas linking through the town, green if possible, but primarily to avoid roads. Make it much easier to cross over the railway track and get from one side of town to the other without having to use busy, polluted and dangerous roads
- Safer cycling routes (ie traffic free). Less dogs mess
- More green space in new build housing areas
- The Hardens farms preserved for future farming as they were intended to be.
- Better connections Stanley Park is isolated and lacks shared community space. Lack of connectivity from canal route to the north and west of the Town. No green route towards Hospital from Avenue La Fleche.
- Slowing/stopping house building on greenfield sites
- More sports facilities and more cycle routes
- Plant some wildflowers to encourage insect life, especially bees which are rapidly dying out.
- Illuminate John Coles Park so it can stay open later in the Autumn/Winter months. Most of the year I am able to walk through the park on my way home, after end Oct to Jan I have to walk home past stationary cars on the Malmesbury Road waiting for the traffic lights, it would be nice if the park had longer opening hours in the autumn/winter and more people could enjoy it through all the seasons
- More....
- Less building of flats and non-communal space on the river
- More clearly defined footpaths and route plans to follow
- Unsure
- More spaces and opportunity to engage
- Better paths were these are in poor condition, more/better lighting, allowing areas to become more natural would help wildlife and save money for the council. More seating outside the formal parks.
- Planting of new trees in Monkton Park.

- Every possible piece of soil should be seeded with wild meadow seed and or a tree, to be maintained for the benefit of the flowers/trees, not for the benefit of cars.
- Green spaces need to be protected for wildlife, biodiversity and future generations
- More space put aside for wildlife and biodiversity
- Trees planted in the flood plain area between the Golf Club and Jubilee Fields (land opposite Baydons Meadow and the Sailing Club). This would improve flood water retention, improve the wildlife, absorb carbon dioxide, make a better place for people to enjoy and improve the landscape.
- More tree planting
- The reopening of the cycleway to Laycock.
- Better cycle routes
- Little Cafe in Pewsham Park
- Massive tree planting initiatives..
- protection of current flood plains and surrounding fields to remain so

Appendix 2

Question 25 (open ended 'Other' responses)

What would encourage you to cycle or walk more frequently into the Town Centre?
Tick as many as apply to you.

- What would encourage you to cycle or walk more frequently into the Town Centre? Tick as many as apply to you.
- None
- better shops to walk too
- Need cycle lanes, especially for children. Would be helpful too to make it illegal to not wear helmets here
- Enforcement, e.g. high number of numpties who breach speed limits & ignoring Right Turn signs etc.
- I can't I am on oxygen so need my electric wheelchair which is different to a mobility scooter and we have to pass an outdoor test with a qualified occupational therapist
- Always walk
- better pavement
- Not much would deter me
- A Light Rail Transit System - (Trams)
- Current share cycle paths are very poorly signed. We see a lot of cyclist on footpaths and no one enforces this
- Not applicable- always walk
- Too far away to do any of these
- All weather accessible cycle paths that are not covered in mud for five months if the year.
- Town Hall cycle parking
- Nicer, quieter, walk for children. It's noisy, polluted and lots of traffic on our journey in
- I live within easy walking distance of the centre
- It's a choice to drive, I would walk if I had to.
- Fewer cars and lorries.
- Maintenance of pavements
- Better Cycle priority at the Bridge Centre Roundabout. Cycle routes UP New Road
- Cycle storage in my flat
- Not applicable- disabled driver
- I already walk
- Connectivity on cycle ways, currently lots of the cycle ways just peter out, ie around railway arches at the new Rd, Bristol road area
- I sometimes cycle from Sutton Benger, but it feels unsafe. Road floods & there are blind bends. Need to make cyclists all round safety a priority. Experience of cycling is an invaluable starting point.
- Better shops!
- Doubtful as rarely go to town anymore
- My health- I can't always walk but always try to.
- Happy to walk
- None, difficult with a small child
- I am unable to ride a bike
- Nothing, I already walk there?
- No measures required
- Active CCTV at cycle parking places
- I have 1 child who is too big for the buggy but struggles with the walk there and back.

Appendix 2

Question 26 (open ended 'Other' responses)

What would encourage you to use buses (or use them more) to get to the Town Centre or to other local destinations? Tick as many as apply to you.

- being able to receive real time updates on bus arrivals on my phone
- Research shows if you show the times of buses digitally at bus stops more people use them
- I use the bus frequently anyway
- study into the viability of bus routes. bus drive by 1 or 3 passengers on. Not fuel efficient.
- Nothing I have no immune system so too high risk of germs
- i don't use buses.
- Do use buses if relevant to destination and timing
- prefer to walk currently
- I walk
- Cheaper. A return is £3, driving and parking is the same and at my convenience
- The buses are excellent
- None
- None as I walk
- Better route information at bus station. I do not know Chippenham well and there is no one to ask at the bus station of which bus to catch to a particular area. Also
- I just never have, nothing specific puts me of
- None
- Bus services are pretty good
- Reliable connections with trains.
- Nothing
- Access to the bus, I have small children and use a pushchair
- None
- I live around greenways Lane, I know we have a bus, but there is no induction of where the bus stops are
- countywide pass schemes
- Haven't used a bus locally
- n/a I'm close enough to walk
- Happy to walk
- Live close to centre gso wouldn't use
- With the new routes, just more of a variety to smaller villages in the area
- None - too close to justify the expense
- Sunday buses to take you lacock and white hall
- Nothing, Chippenham is too small to bother with public transport.
- I live on Hardenhuish Lane, no public bus routes on this road, have to walk to the Malmesbury Road for a bus
- Environmental benefits
- None as live close enough to walk
- Too close to town to need a bus but being able to get to/from Bath and Bristol by bus/train, especially later in the evening, would be helpful.
- Electric/Hydrogen engines

Appendix 2

Question 27 (open ended 'Other' responses)

What forms of transport do you use most frequently to access your main place of work? Tick as many as apply.

I'm retired

I am a volunteer at museum

Retired

None

Retired

retired

retired

I'm in college and travel in holidays so I apply what I would do then to give you an example of a teen

Shared lift

Van

Car share scheme at work.

I am retired and not working

Appendix 2

Question 31 (open ended 'Other' responses)

If you answered 'yes' or 'maybe' to the previous questions, why does your household need a new home?

Would like larger garden.

My mum - currently staying with me as her husband just died, but looking for an accessible, safe home for herself.

Better quality of home

Need bigger garden

Currently renting but want to buy own property

I'm 17 and by the time I'm 23, I'd want to be at least a stable rent of a home/ maybe looking for a mortgage

Children can't live in the same house all their lives

Want a bigger house

Move to village, less busy

Sheltered housing

Appendix 2

Question 48 (open ended responses)

Do you have any comments on the above question?

- I think this is the most important challenge for our time and to not be doing everything we can to address it is being reckless, criminal even.
- Need to have estates which are not concrete wastelands.
- No
- No new housing development should be permitted without net zero requirement. It should also be policed. Would also include special traffic measures to discourage car use and encourage bike, bus and walking over cars.
- Excellent questions thanks.
- I suppose there's a balance to be had in providing energy efficient housing but which is affordable esp for first time buyers. Chippenham has a lot of young people trying to get on the housing ladder.
- More important to ensure quality layouts and features than specific building requirements. Building regs will require ever increasing home standards so concentrate on better internal design of development.
- Recent New Developments have been described by a Town Planner as "Encouraging Anti-Social Behaviour". Chippenham has to stop building such developments and learn from recent mistakes.
- No
- I agree with green roofs/walls but unfortunately the examples at Great Mead on Monkton Park have not been maintained and look terrible and are not doing the job.
- They should be architecturally attractive
- It goes without saying the where possible everything should be viewed from a sustainable point of view. However, there is a very fine balance when taking financial the implications into consideration.
- The government should make all new buildings conform to net carbon neutral standards not just housing.
- 100% have to do this if we are to meet the Govt's carbon reduction targets.
- Parking is a concern as new developments are packed too closely together with no garages or garages in people's gardens. More green space should be preserved. Look at 1940/50 style housing. Please BAN these new estates which are quickly thrown up and made of materials that cannot support storage in their roof space or hold up pictures on their walls due to the poor quality of modern housing.
- New developments should be built on existing or new bus routes. For major greenfield developments segregated busways should be the primary transport infrastructure with housing and facilities grouped near stops. This would provide better connectivity to the town centre and avoid land taken up by car parking in the town centre.
- I can't see anybody disagreeing with questions above. Except a cheapskate developer.
- If net neutral isn't possible, then at minimum a new building should reach

a low carbon figure set by the council after discussion with those who are aware of what's needed climate-wise.

- Need to consider carbon impact holistically; that is the entire construction and associated infrastructure should be at least carbon neutral or carbon negative to compensate for other parts of the town that are not.
- New housing should last for 100 years, so now is the chance to impact on climate long term
- I would like to know more about climate change groups in Chippenham
- Larger gardens are needed for environment and wildlife. Also for children and exercise
- Stop building on, or very near to, flood plains and marshes!
- It should align with current science & aim to exceed government targets
- Who bears the cost of fixing the energy generating equipment if it breaks? Is it inefficient for each development to have it's own energy generating system?
- Knowing what we know about the risks we face from the Climate and Ecological Emergency, it is a moral responsibility, as well as an economic and health imperative, to mitigate it's effects immediately and in any way we know we can. We should put this over and above any other sensibilities about the way we live, and embrace these changes positively, as they will benefit us and safeguard future generations as much as is now possible.
- Stop building houses in Chippenham and most of above solved
- New houses and developments that are in particular taking over green/ open spaces should seek to make as small a footprint as possible. What they take out must be recovered ie green walkways, green roofs, hedges not fences, ponds and wide life habitats so as to displace as little as possible
- This should apply to both commercial and residential premises. Also consider how green infrastructure could be introduced elsewhere e.g. Green roofs on bus shelters
- We should be designing new housing following no regrets principles to future proof the stock
- I'm young and if it's possible to use these thing to benefit the wildlife/ecosystem do it now before it's too late we are on the brink now so in my future every little moment to make sure a small rain drop isn't causing flood it's all great news for us e.g. we slowing down climate change.
- The issue will be cost
- Not sufficiently qualified to comment.
- New builds should be targeted as minimum the existing housing stock needs investment and incentives to improve it. a tax on sale of inefficient houses might work.
- It should be mandatory for all new buildings to be carbon neutral. It should also be mandatory for all new development to maximise sustainability features including those listed above unless there is a technical reason (excluding cost) to prevent this.
- Very skewed questions, bit of a wishlist really...development has include compromise. And what about existing buildings?
- Overcoming car dependency is a vital issue when looking at new housing developments
- All new development should meet sustainability and best practice

- design. Build the best and Chippenham will be a better place.
- New developments should be minimised. We should reuse existing sites and encourage older people to downsize before building more new houses on greenfield sites.
 - How will the need for electric car charging points be met? So many houses in the centre of Chippenham are terraced.
 - Solar panels on all supermarket roofs and car parks ,and all public buildings
 - I would also encourage there to be enough garden space (private or communal) for people to grow their own food. Public landscaping should also be done with this in mind, e.g. hedges with fruit for foraging.
 - "Net Carbon Neutral" should include all CO2 and Enviromental costs from the point the field/woodland/wetland is first touched by developers to the point it is fully built and furnished, not just the 'running costs' when it is lived in. Not doing so is delusional.
- It is important to think of the future and this would be one way of helping with climate change
 - If we don't build carbon neutral, we will have to retrofit, which is more costly. It is also irresponsible (to future generations) not to mitigate climate change this way. It does not cost much to acheove this when building.
 - Energy efficiency and environmental friendly should be balanced with aesthetics as some newer eco homes are an eye sore
 - It is imperative that Wiltshire Council award future planning permissions to developers who can build sustainable new homes. Retro fitting is more expensive in the long term.
 - Let us start with the above improvements, which would make a considerable difference. Net carbon neutral would be great but will be a big step so make it a longer term aim.
